

Financial Manager Change Request

The Financial Manager Change Request allows a department to submit requests for Fund Manager or Orgn Manager changes. Once submitted, the request routes to the Fund Managers for each fund in the request, notifying them that the request is in their queue for approval. After Fund Manager approval, the request will route to Finance Systems Management for final review and processing.

Requests can be tracked through the Search feature where the status and details of the request can be viewed.

The system and related training documentation can be accessed from:

- [Financial Manager Change Request](#)
- [WebRaider portal](#) > Business Affairs tab > Links to Financial Systems > Financial Manager Change Request

Note: The FOP Orgn Maintenance section of the Finance New FOP system is not utilized by TTUHSC. The Program Description Setup and Program Fund Class Setup sections, found under the Functions tab, are not used by functional users.
