

Mixed Content Accessibility Test Document

Use this file to test both image captioning and table summarization. It intentionally contains several embedded images and several data tables across three pages.

Section 1: Images and a Simple Data Table

Figure 1 is a workflow diagram. A remediation tool should identify it as an image/figure and generate concise alternate text.

PDF Accessibility Remediation Workflow

● Image captioning ● Table summarization ● Source-guided output

Figure 1. PDF accessibility remediation workflow diagram.

Campus Ticket Summary

Campus	Open Tickets	Closed Tickets	Average Resolution Time
Lubbock	124	118	1.9 days
Abilene	37	35	2.2 days
Amarillo	42	39	2.4 days
Dallas	56	53	2.0 days
Permian Basin	31	29	2.7 days

Section 2: Dashboard Image and Accessibility Checklist

Figure 2 is a dashboard-style image. It is followed by an accessibility checklist table that should receive a short screen-reader summary.

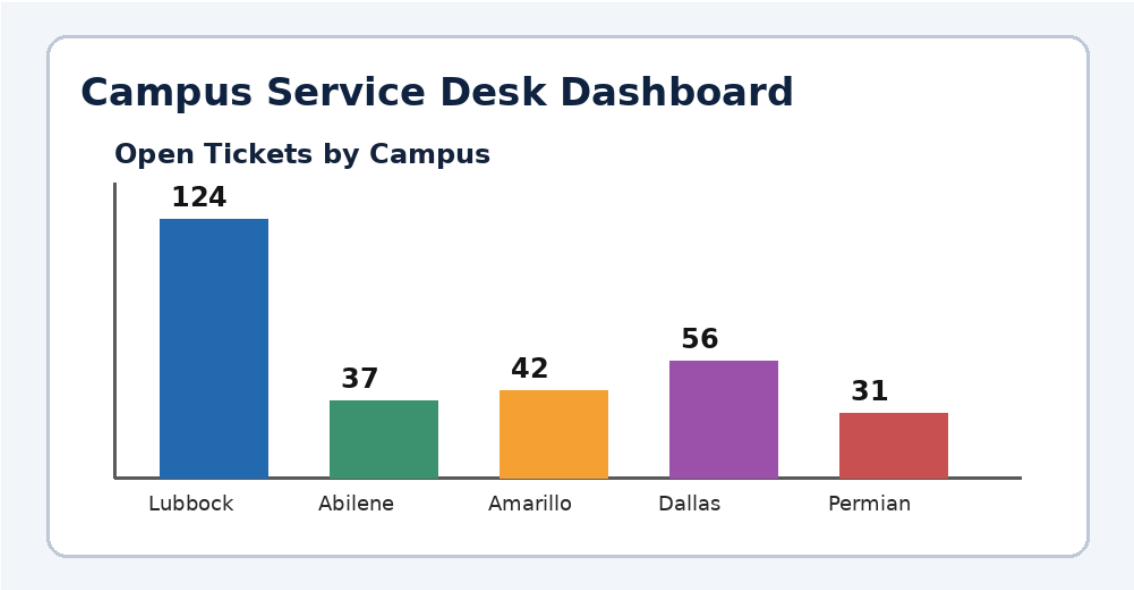

Figure 2. Campus service desk dashboard chart.

Accessibility Remediation Checklist

Check Area	Question	Status	Notes
Images	Do meaningful images have alternate text?	Needs Review	Use image captioning remediation.
Tables	Do data tables have summaries where needed?	Needs Review	Use table summarization remediation.
Headings	Is the heading hierarchy logical?	Pass	Document uses H1 and H2 headings.
Reading Order	Does reading order follow the visual layout?	Pass	Simple one-column layout.
Links	Do links have descriptive text?	Not Applicable	No hyperlinks in this test document.

Section 3: Infrastructure Image and Training Table

Figure 3 is a simplified infrastructure illustration. The table below compares quarterly training completion by department.

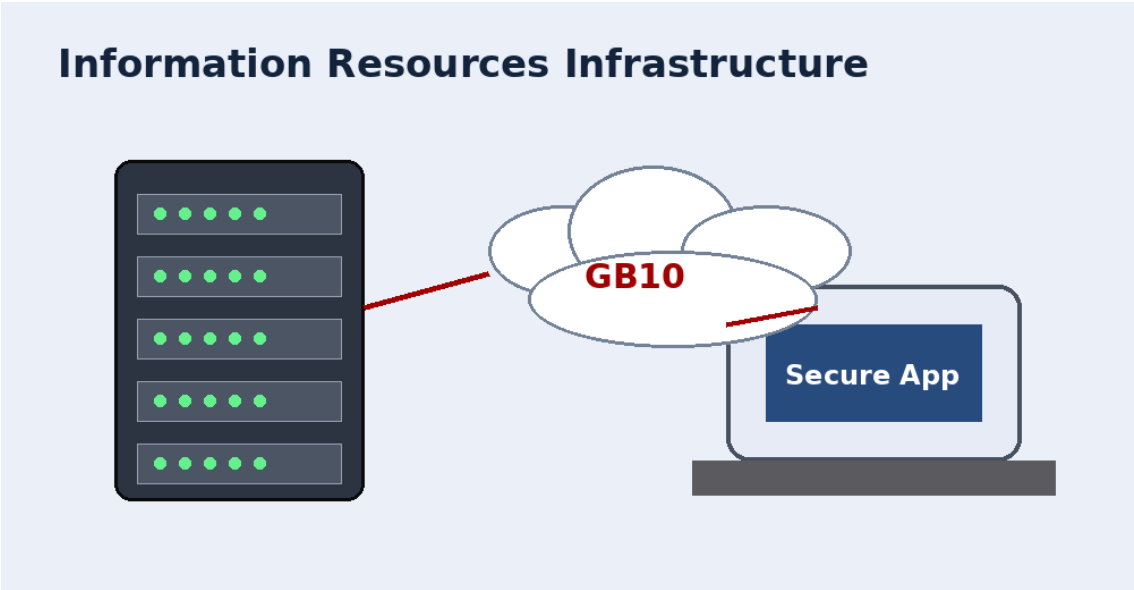

Figure 3. Information resources infrastructure illustration.

Quarterly Training Completion

Department	Q1	Q2	Q3	Q4	Year-End Trend
Information Technology	82%	88%	91%	96%	Improved
Finance	76%	80%	85%	89%	Improved
Human Resources	90%	92%	93%	95%	Stable high completion
Facilities	68%	72%	79%	84%	Improved but still lowest
